Catechism Home Study Program

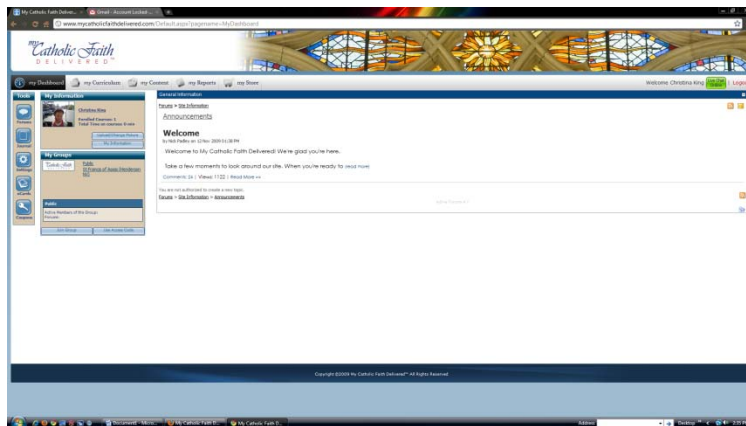

To Login:

Go to the Web site mycatholicfaithdelivered.com

At the top right corner, enter your email and the password which we provided for you and click “**LOGIN**”.

The Privacy Policy will come up. Look it over and press “**Continue**”.

The following screen will appear:

I recommend that you click on the student’s name at the top right and change your password. Be sure you write down your new password!!!

Feel free to play around with the “my Dashboard” page. If you would like to, you can upload a picture of your student and update personal information. If you read the privacy statement the first time you logged in, you will probably be comfortable doing this.

To Start Your Lesson:

Click the “**my Curriculum**” tab at the top of the page.

Under “**My Classes**” at the left, click on “**Faith and Life**”.

Click on **your child’s grade** just below that.

Click on “**Introduction**” and then the large “**Start Lesson**” icon that appears. This short Introduction is a great way to get used to using the program.

The lesson should walk your child through each step. At the top right, you can change settings such as font size and autoplay. At the top left you have an index of the lesson that you are on.

I encourage you to be a part of each stage of your child’s learning and discuss the material with them.

Your child’s progress will be automatically tracked and available to the parish’s program administrator.

If you have any questions, please call Craig or Kristi at the Parish: 914-3529
